ANNUAL CATALOG 2015

Words from Bob

The freedom of radio listening is truly magical with its huge educational and entertainment benefits. It's wonderful and our great radio listeners don't need rehab.

Traditional radio and cell phones are dependent on radio waves. The invisible waves deliver mobility without a connection to wires. Radios will be here forever because they are devoted to the act of listening. It gives you the freedom to drive, work and dance with dinner.

When we started this company over 30 years ago radio waves were broadcast over the air. For the most part, no matter what you listen with, they still are. Receiving radio waves better is what we specialize in. We are here to build the best radios we can to serve you now and in the future.

If you have a computer you can sign up on our private list for sales, lower prices, new products and fun.

The Berlin Radio Tower

Portable AM/ FM/ WX/ 2-Meter Ham Band

Designed for long-range reception and audio clarity

The purpose of the CCRadio-2E is to make weak signals strong and produce crisp, accurate audio for the spoken word.

AM performance comes from our patented Twin-Coil Ferrite® AM Antenna and traditional FM reception is exceptional in its ability to bring in a weak station clearly. The audio of this enhanced version can be adjusted for accurate, warm voice rendition along with good musical performance.

This radio also has the weather band and alert along with the 2-meter Ham Band. More information about the 2-Meter Ham Band can be found at: *CCRadio.com/2-meter*.

Since the CCRadio's original debut the external design has remained the same but there have been countless revisions inside to improve performance, durability and audio. It is one of the most popular portables manufactured and many experts feel it is the best portable radio made. It has evolved into C. Crane's flagship radio.

Weight: 4 lbs (without optional batteries) Size: 11" W x 6.5" H x 4" D. Runs on included AC cord or four (optional) "D" Batteries.

Item #CC2BE.....Black Mica.....$169.95
Item #CC2TE.....Titanium.....$169.95

With AM, FM and Weather

Our pocket radio is a real blessing when on the go

We combined ease of use, great reception and sharp, well defined audio together in this little jewel of a radio. You can listen on the built-in speaker or the included high quality CC Buds that are tuned for the spoken word.

It has five easy to use, one touch memory buttons for each band and stands upright for best audio. Rubber coated sides help with grip.

- Display light, sleep timer, clock and alarm, belt clip
- Battery and signal strength meters
- FM stereo or mono switch and reception indicator
- NOAA Weather Radio with Alert (disables AM/FM radio while activated)
- Runs on (2) "AA" batteries (not included).
- About 75 hours of play with ear buds, 25 hours using built-in speaker
- FM antenna wire included

Weight: 3.8 oz. without batteries. Size: 2.5" W x 4.25" H x 1" D.

Item #CCPKT.....$64.95

Bluetooth® Stereo Speaker

Stop with the tinny sound and the ear-bud "noose"

The Senta Ally has excellent audio and is light, powerful and rechargeable. You can connect using USB, FM, Bluetooth®, SD card or the included 1/8" Auxillary input cable.

With the Ally you can stream audio via Bluetooth® from your mobile phone, tablet, laptop, MP3 player and any other Bluetooth® enabled device. It is perfect for your next road trip, and great for listening to your favorite playlist from your phone or tablet while cleaning the house or working out.
Is your favorite playlist on a thumb drive or SD card? It will play room filling audio from those as well.

The Ally delivers crisp, full range stereo sound with bass performance that makes it the center of attention.

It is a remarkable value.

Weight: 9.8 oz. Size: 9" W x 2.2" H x 2.1" D. Charges via included USB cable.

Item #ALLY.....$69.95

Bluetooth® logo is a registered trademark of Bluetooth® SIG, Inc.

With AM, FM, Shortwave, Weather and the Aviation Band

Our newest travel pocket radio!

The CC Skywave opens up a marvelous new world of radio when you're voyaging or at home.

Reception, audio and durable build are what this radio excels at. The Skywave has an intuitive layout so it's easier to use. Incoming radio signals can be manipulated to reduce interference.

The Aviation Band lets you listen in on nearby pilots, air traffic controllers, and ground crew. English is the standard language used in aviation worldwide. Sometimes it's important to find out whats going on.

Included is a pair of our wonderful CC Buds for your listening pleasure, a carry case, and it has a rotary volume control.

Weight: 5.5 ozs. (without batteries). Size: 4.75" W x 3" H x 1.1" D.
Runs on AC power or two "AA" batteries (not included).

Item #SKWV.....$89.95
Optional - **Item #SKWVP.....AC Adapter.....$14.95**

Full featured AM/FM Shortwave Radio

The world at your fingertips!

The purpose of the CCRadio-SW was born when an engineer's time went into producing some of the best reception and audio you could find in a portable radio. It has all the necessary tunings and tweakings available for excellent performance under various conditions and offers the best combination of sensitivity, selectivity and audio performance for any radio of this size.

This masterful radio delivers some of the best FM reception and, thanks to the built-in Twin Coil Ferrite® Antenna, the AM is exceptional. It has continuous coverage of the shortwave band with excellent reception right off the whip antenna. The five-inch speaker is accurate, pleasant and probably reproduces deeper bass than any portable of similar size.

The CCRadio-SW is one of the few radios with a mono switch. When activated the radio filters out the stereo FM multiplex signal which can add a hissing noise when listening to a weak station.

Weight: 4.2 lbs. Size: 11.25" W x 7.25" H (9" H with handle) x 3.5" D. Runs on four optional "D" or "AA" batteries. An AC adapter and antenna connectors are included.

Item #CSW.....$149.95

AM/ FM/ Weather Windup Emergency Radio

Peace in a time of crisis

The Observer is a simple, affordable and compact radio with enhanced reception and audio performance. For emergency use it can be powered in four different ways and can charge many different USB type devices including cell phones.

In 1992 three earthquakes hit Humboldt County where we live. All three registered between 6.5 and 7.2 on the Richter scale and all happened within a 17 hour period. Communication and services, including electricity, were hopelessly overloaded. In the Crane home shards of broken glass and bare feet were everywhere. All of our flashlights had been over used by our blessed children. We vowed to make a good emergency radio and light so that this would never happen again.

The radio can be powered by wind-up, optional AC power, solar panel or 3 “AA" Alkaline batteries (not included). In an emergency it can charge cell phones with the included USB port adapter.

Weight: 1 lb. Size: 7.25" W x 5.5" H x 2" D.

Item #COBS..... $54.95
Item #OBA....AC Adapter (optional)... $14.95

AM/FM Portable Radio built with Simplicity in Mind

The radio that is "just a radio"!

The portable CCRadio-EP could be considered a super radio; built for ease of use and outstanding long range AM performance.

Great for listening to Talk Radio, NPR, Music and Sports, the EP has wide bass and treble adjustment range for defined music and voice reproduction.

A large 5-inch speaker is combined with a hi-fidelity amplifier and a "Music/Voice" enhancement dial to give extra clarity to AM programs. For those extra weak AM stations simply fine tune the built-in Twin Coil Ferrite AM Antenna.

Includes external antenna jacks for those who live or work in a metal or concrete building and enjoy listening to a radio.

The EP is a true "analog" radio with dial tuning, so there will be some variance in the accuracy of the needle and dial. If you want pinpoint precision we recommend taking a look at our digital radios.

Weight: 4.5 lbs. Size: 11.4" W x 7.3" H x 2.75" D. Runs on four optional "D" batteries (not included). AC adapter is included.

Item #CEP.....$84.95

AM/FM Radio with Hi-Fidelity Audio

Best audio for its size

The Gozo produces perhaps the best full range audio for a radio its size because of an additional passive radiator. FM, as well as AM, is superb when listening to a strong local station. You'll also enjoy the full extent of your music library by connecting it to the input jack on the back. The input jack is tuned for just this kind of device and will give you unbelievable sound.

The radio was specifically developed for unusually high fidelity audio in a small package. The simple design can make a cosmic blend with AM/FM radio and your smart phone that doesn't have good audio.

A sturdy handle/stand and precise Vernier dial complete the picture for this radio's inspirational audio.

"These radios are great! I own 2. Yes, they are retro-looking, but the sound they generate is so clear...there's a port on the back for bass to come out...the tuners are wonderful and the quality is high...also you can turn them up much higher than you would expect and the sound quality stays great. With all these features, the counter space used is minimal! There is a 1/8 inch aux input on the back as well. Great product!" - P Harvey, Alpharetta, GA 9/20/2013

Weight: 1.5 lbs. (without batteries) Size: 7.3" W x 4.2" H x 3.25" D. Runs on six optional "AA" batteries (not included). AC adapter and 1/8" audio patch cord are included.

Item #GOZO.....$99.95

Shortwave Pocket & Travel Radio

A great travel companion

In a true testament to its quality and performance, the modestly priced CC SW Pocket has been voted "Best Travel Radio under $200.00" by Passport to World Band Radio.

The CC SW Pocket AM/FM/Shortwave Travel Radio has exceptional AM reception and audio quality and is sensitive enough to outperform most radios in its class. And it's small enough to tuck in your carry-on bag, briefcase, purse or backpack.

You can quickly and easily retrieve up to 200 of your favorite AM/FM and Shortwave stations in any order by simply turning the tuning knob and taking advantage of a smart feature called "Favorites". You won't lose the stations saved in the memory when you take out the batteries.

The CC SW Pocket Travel radio also has a keypad for direct access to any frequency. Features include: built-in speaker, alarm clock, direct key entry, stereo headphone jack, sleep timer, display light and backstand.

Weight: 6.5 oz. Size: 4.75" W x 3" H x 1.2" D. Runs on two optional "AA" batteries (not included), or optional AC adapter.

Item #SWP.....$54.95
Item #SWPP.....AC Adapter (optional).....$11.95

Internet Radio - Clock, Alarm & 99 Memory Presets with Pandora, Aupeo, Live365 and MP3tunes

Get even more of your favorite music and news for free!

Most people get a wifi radio so they can listen to their favorite stations with perfect clarity. With the CC WiFi Radio the stations are always clear, no matter how far away they are and you are also able to pick up stations on the CC WiFi that are difficult to get on a computer.

With over 16,000 stations to choose from, you can find 10 or maybe 100 times more news and music with the CC WiFi than any other type of radio. For example, you will find about 500 stations each of Jazz or Classical music to choose from. The radio can access these stations from any place in the world where high speed internet is available.

The CC WiFi has good audio for its size and it can be connected to your stereo system directly for superb audio. You can also use our FM Transmitter-2 to send the WiFi signal to a nearby radio or stereo.

Weight: 1 lb. Size: 6.5" W x 3.9" H x 3.9" D. WPS Enabled. AC Adapter and Remote Control included.

Item #CWF.....$119.95

NOTE: C. Crane is not responsible for internet radio programs or their content.

Internet Radio with Bluetooth® and FM

Receive thousands of stations clearly

Open up a bold new world of listening to local radio, music, talk, sports, podcasts and FM with the CC WiFi 2.

Choose your favorite radio program or host and begin listening to Internet stations that are always crisp and clear. The radio uses TuneIn technology which has comprehensive search tools to help you find the radio programming you desire.

A large speaker with a simple equalizer gives room-filling audio. Create great audio from your mobile phone, tablet, Bluetooth® device, or flash drive with the CC WiFi 2.

Charging Via USB - Plug your smart phone into the CC WiFi 2 and start charging in a more convenient location.

No subscriptions, but a broadband internet connection is required.

Weight: 2.8 lbs. Size: 8.75" W x 4.75" H x 4.75" D. AC Adapter and Remote Control included. WPS enabled.

Item #CWF2.....Black Mica.....$149.95
Item #CWF2W.....Hand-rubbed Cherry Veneer.....$179.95

NOTE: C. Crane is not responsible for internet radio programs or their content.

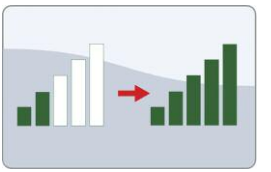
8dBi antenna shown

CC X Mile Long Range Outdoor USB WiFi Antenna

Boosts WiFi reception! Home/Mobile/RV

The CC X Mile is a great solution for getting WiFi in your RV, Big Rig, Boat, remote Business or Home.

High Power, Boosts WiFi Range



A long 28" 8dBi omnidirectional WiFi antenna is included that provides a strong signal strength in all directions. For long range reception, it is best to mount it outside and up high where distant signals can be received without obstructions. Up to 150Mbps transfer speed with wireless N.

Versatile, Rugged and Weather Proof for Outdoor Use

The 8dBi WiFi antenna has a cast-aluminum mounting bracket and outdoor rated connections for many years of reliable use. It can mount to a wall or a ½" - 2" pipe mast (not included).

For difficult to receive WiFi signals you can add a directional Point-to-Point WiFi antenna (sold separately) for up to 4 times more power.

Installation is simple; just plug the 30ft USB cable to your computer, install the easy software, and you're finished.

15dBi Point-to-Point (P2P)
Size: 11.8" H x 15.75" W

Weight: 1.3 lbs. 30' USB split cable, software, mount & hardware, sealant and silicone grease included.

Item #XML.....X Mile.....$139.95

Item #60FT.....60-ft USB Cable.....$34.95
Item #PTP.....Directional 15 dBi parabolic antenna.....$44.95
($34.95 with Purchase of the X Mile)

Super USB WiFi Antenna 3

Boosts WiFi reception! Home/Mobile/RV

The Super USB WiFi Antenna 3 plugs into your computer's USB port for powerful long range WiFi reception.

Internal WiFi is not required and installation is a snap. It can help you maintain a network connection of more than 300 feet even through several walls. You can typically find several new wireless networks. In our extreme distance tests we were able to connect to a network a mile away (with no obstructions).

Over the years we have made numerous improvements to this WiFi antenna. It is now weatherproof, IP65 rated and has four times the power of our original version.

It is one of the best and most versatile home, mobile and RV WiFi Antennas made.

NOTE: The Super USB WiFi Antenna 3 requires installation of software drivers. Gaming stations such as the Xbox® and the Sony PlayStation®, the iPad®, iPhone® and Android® devices are not capable of installing these software drivers. We are sorry but this antenna does not work on the MAC OS 10.9. (Mavericks)

Windows XP through 8, MAC 10.4-10.8 compatible.

Size: 1.4" W x 10" L x 0.6" D. Antenna weight: 1.8 ozs. 15' USB split cable, suction cups, mounting strip, cable tie, lanyard, grommets and software included.

Item #US3.....$99.95
(was $ 109.95)

Item #SPC....30-ft USB Cable (optional).....$19.95
Item #60FT....60-ft USB Cable (optional).....$34.95

Versa WiFi USB Adapter 3

Compact solution for travel

With the Versa WiFi USB Adapter 3 you can significantly boost your computers WiFi signal. It can be a perfect solution for use in low signal areas and its small size makes it great for travel.

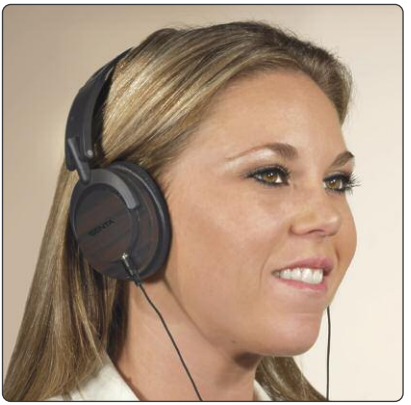
The 5dBi antenna with magnetic mount and 8 feet of cable (included) allow the antenna to be placed in a window or outside a vehicle where the WiFi signal can be best received.

Setup is easy with the included software or use the standard Windows drivers for fast plug and play compatability.

The coaxial connector gives you the ability to use it with a more powerful antenna.

For the biggest boost in range you can attach our narrow beam Point-To-Point WiFi Antenna for reception up to about 3 miles without obstructions and depending on the wireless router's sending antenna.

Item #WF3.....$49.95



Senta 40 Wooden Headphones

Musician designed and coveted by professionals

They look like they sound: Smooth, clean, clear and natural. Offering a full range response and incredible stereo imaging, the Senta 40's deliver your music faithfully and they're really comfortable. The headband is lightweight and adjustable. Ultra soft ear cushions on ebony wood offer long lasting comfort.

The headphones feature a folding design for convenient storage and portability. Detachable 4-foot fabric cord and carry case included.

Item #S40HP.....$59.95

Mute Button

Senta 9 Earbuds

Musician designed

The Senta 9 earbuds perfectly balance science and art. Advanced sound isolation prevents external noise from mixing with your audio, allowing you to immerse yourself in sound without reaching damaging volume levels.

They are great for athletic life styles, professional applications, or just every day listening. The Senta 9's are designed to stay in place comfortably.

4'4" cord with mute, earhooks, extra ear pieces, lapel clip and carry case included.

Item #S9EB.....$34.95

Voz Headphones

The Voz are good-sounding headphones at an affordable price. They have very good bass response for music and they are accurate when listening to talk radio. They are probably better than a similar pair you might find at a big box store but for much less. Adjustable headband, large ear cushions, 7-foot cord.

Item #VHP1.....$14.95

Voz-P Premium Wooden Earbuds

Experience incredible audio quality and comfort with premium earbuds. The Voz-P can handle everything from full, rich bass tones to bright, shimmering highs. The rubber earpads provide superior external noise isolation and are soft enough to be enjoyed for hours. Three sizes of earpads and carry case included. 5.75-foot tangle-resistant cord. More info at: *centerpointaudio.com*

Item #PWE.....$~~19.95~~
SALE.....$ 9.95

Voz Earbuds

Nothing fancy here, but make no mistake, these no-frills earbuds are some of the best we tested. They're an inexpensive upgrade for any portable audio player. Enjoy the richness of every note and the clarity of full stereo sound.

We include four extra ear cushions with every order. 1/8" stereo tip plug. 4-foot cord.

Item #BWC.....$9.95

Over The Earphone

The Over The Earphone speaker looks unusual but it is comfortable, durable, and has good voice audio quality. We have some law enforcement and news program listeners who use it for steadfast listening where good comfort is a concern, along with still being able to hear when someone talks. Stereo tip plug. 5-foot cord.

Weight: 0.8 oz. Size: 1.8" W x 2.8" H x 0.5" D.

Item #OTE.....$9.95

CC BUDS

Tuned for the spoken word

The CC Buds unusual, high quality drivers are tuned for excellent voice rendition. They are designed for maximum comfort while holding a snug fit.

Since we are all about audio and reception, C. Crane was lucky enough to have James, a musician going for his doctorate, make us the best earbuds possible. We tried dozens of different drivers and housings to find the best combination of audio. James eventually found the match that was perfect for voice and music without the heavy bass. Great for audio books too!

4' cord with strain relief, stereo tip, and extra earpieces included.

Item #CCBUDS.....$12.95

Standard Pillow Speaker

While not quite in the same league as our SoftSpeaker Pillow Speaker, this standard pillow speaker does have good audio quality and is loud. Break resistant wire. Stereo tip plug. 6-foot cord. 90-day warranty.

Weight: 3.7 oz. Size: 3.3" W x 3.5" H x 1" D.

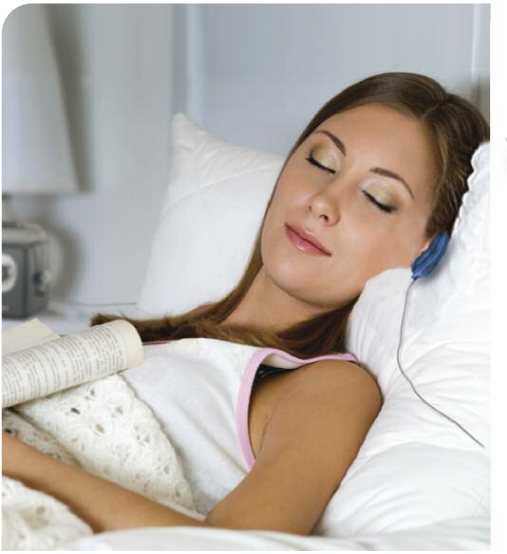
Item #PSS.....$7.95

Crystal Earphones - Timeless Quality

These are the highest caliber single ear plug earphones available. The small earphone comes with a separate plastic hook that can loop over your ear for comfort and is preferable for those with smaller ears. Stereo tip plug. 6-foot cord.

Item #SCE.....Small.....$3.95

Item #LEP.....Large.....$5.95



SoftSpeaker™ Pillow Speaker

This pillow speaker has saved a marriage or two ...

The SoftSpeaker is the first pillow speaker designed not just to go under your pillow. It can sit right on your pillow, closer to your ear, so you can keep the volume where only you can hear it.

To create the SoftSpeaker, we started with a rare earth magnet speaker. We encased it in soft padded foam and put it in a teddy-bear soft cover that is removable and washable. It's so plush you can rest your ear right on it. Plug the speaker into the headphone jack of any radio or smart phone, put it on your pillow and enjoy some of the highest music and voice fidelity available.

The SoftSpeaker-2, has an in-line volume control so you don't have to reach for your radio or phone to control the volume.

They both offer the perfect combination of comfort, privacy and quality.

Size: 2" Dia., 6.5' cord with 1/8" jack.
(Pat. #US D466,886 S)

Item #PS2.....SoftSpeaker.....$22.95

Item #SSV.....SoftSpeaker-2 with Volume Control.....$24.95

Digital FM Transmitter-2

Send broadcast quality audio from your mobile phone or any audio device to any nearby FM radio!

The FM Transmitter-2 uses common FM radio waves to send sound from any device you choose to any nearby FM radio or stereo system. The only wire you have to connect is from the FM Transmitter to a headphone jack. You can use it with your iPhone®, WiFi internet radio or even your satellite radio.

While most people use it to send music from their computers or MP3 players to a nearby radio, some customers have told us how they use it with their televisions, guitars, portable DVD players or iPod® (a lot of fun in cars) and even other radios.

It has a thumbwheel that allows you to adjust the input for perfect audio quality and a two-level LED indicator to help set optimal signal level. It broadcasts clean, very high fidelity stereo audio.

Maximum distance is about 45 feet line of sight with no obstructions. Broadcast distance will vary depending on your location (for more information, Google search: *ccrane fm transmitter-2*).

FCC compliant. Choose any FM frequency between 88.3 MHz and 107.7 MHz. Portable, fits in the palm of your hand.

Weight: 5.8 oz. Size 3" W x 3.5" H x 1" D. Runs on two (optional) "AA" batteries. AC Adapter, 6' dual RCA plugs to 1/8" stereo jack patch cord included.

(Patent # US D483,024S)

Item #FM2.....$49.95

Twin Coil Ferrite® AM Antenna
Signal Booster

Capture AM like never before

The Twin Coil Ferrite® AM Antenna is ideal for boosting most AM radio reception problems. No matter what kind of radio you're using the antenna will reduce 90% of nighttime fade out, and help reduce static and distortion. The Twin Coil can double the audio clarity of any weak station during the day.

The antenna was designed to work with everything from portable radios without antenna connectors to home stereos with wire antenna terminals. Its wireless ferrite stick works on radios without antenna connectors.

The antenna element is capable of picking up a clean signal some distance from your radio and sending it to the radio and overriding the static. This feature alone can make it the ideal AM antenna because there is no other way to get a clean signal. It has the highest gain of any commercial AM antenna.

The antenna element has directional characteristics. By rotating the antenna element in a window or outside you can improve the signal strength. As with any AM Antenna, you may need to take the time to experiment to find the best location (Pat. #US 6,529,169 B2)

Patch cords, antenna, tuner, ferrite stick, mounting hardware and AC Adapter are included.

Item #TCA.....$99.95

Terk AM Advantage

When you want better AM reception, but also want an AM Antenna with some style points, you have a great choice.

The Terk comes with wires, so you can connect it directly to your stereo or radio. You can also use it just by setting the antenna near your AM radio (through a process called inductive coupling).

The Terk AM Antenna outperforms any of the smaller antennas normally included with a home stereo system.

Size: 9.25" high.

Item #TR1.....$44.95

CC SW Reel Antenna

The CC SW Reel Antenna is a convenient and inexpensive way to improve the reception of any shortwave radio. Just attach the end clip to the telescoping antenna of your radio and extend the antenna up the wall or to a window. Winds up into a sturdy case for portability.

Size: 4" W x 2.9" H x 0.8" D.

Item #CCSWA.....$19.95

FM Reflect Dipole Antenna

Our best indoor FM Antenna that also works wonders with HD Radio.

A quick and easy way to improve the FM reception of your portable radio or stereo receiver is with an affordable FM Reflect Antenna. The FM Reflect can be bent and shaped to get the best reception from the circular polarization now used by many FM stations.

Size: 54" all-copper element with an 8-foot feed line. Weight: 8.5 oz. Comes with "F" connector, balun spade connector and alligator clip.

Item #FMW.....$34.95

CC Lantern Wind-Up LED Lantern

Make it exciting when the lights go out!

Just pull the lantern out of its self-storing body and choose between low and high to light your way. This excellent compact lantern makes it perfect for camping, hunting, or keeping in a calamity kit for natural disasters.

All adapters and cables are included for charging the lantern using a USB port or 12 Volt adapter. Also, you can charge your mobile phone using the lantern's USB port or the 12V socket USB adapter in your car. Charges most phone models, including Android™ and BlackBerry™, but not iPhone®.

Size: 4.2" W x 9" H x 4.5" D. - Collapsed size: 6.1" H.
Weight: 17.5 ozs.

Item #DLL.....$44.95

Power Vivid® Pocket Flashlight

The handy Power Vivid delivers an intense white beam of light from a single bright LED, using a single (AA) battery (not included).
Features include a durable aluminum housing, detachable keychain lanyard, it's waterproof and has a push button on/off switch.
Size: 3.7" L x 0.8" Dia.

Item #PVF.....$7.95

The CC LED Spot

The difference between the CC Spot and an old style spotlight is night and day.

- Less than 1/2 the weight.
- Uses less than 1/2 the battery power.
- Lasts more than twice as long.

Bright enough for all general needs, it gives 25 hours of light on high-beam, and 175 hours on low-beam.

Rubberized high impact plastic allows no worries of damage from being dropped from waist level.

Super Efficient LED = More Light, Fewer Batteries

Wrist lanyard and shoulder strap and adjustable stand included. O-ring sealed and water resistant IPX4. 155 lumens. The logic of the Hi/Lo/Flash is exclusive to C. Crane.

3-year limited warranty by C. Crane. Size: 5.9" W x 5.6" H x 3" D. Weight: 10.2 ozs. Runs on three "C" batteries (not included).

Item #SPOT.....$49.95

Unity Plus LED Flashlight

The Unity Plus is a perfect combination of power, size and weight.

A wide beam setting is great for general illumination, and can be adjusted to an intensely strong tapered beam. At a distance of 50 feet, the light can be narrowed to only 2' wide, perfect for long distance spotting. The handle is the right size for a firm grip and self-defense.

On a set of (2) "C" batteries you will get about 4 hours of continuous use on the high setting, and about 22 hours on low. The logic of the Hi/Lo/Flash sequence is exclusive to C. Crane.

Batteries not included. Single 3-Watt LED bulb. Size: 8.5" L x 1.63" Dia.

Item #UPLF.....$34.95

CC Trek 4-LED

Waterproof Flashlight

The original CC Trek 4-LED Flashlight started the flashlight revolution in 1998 and is still the one by which to be measured. You get over 40 hours of bright light, and after that, over 100 hours of useful light. The long battery life and shockproof, slim design make this the perfect flashlight for a backpack or purse.

The soft, even light cuts through darkness better than incandescent flashlights and without the frustration of a fragile filament bulb. The 4 LED bulbs last about 30,000 hours. Durable "twist on/ twist off" switch. Tested waterproof to 160 feet. Elasticized lanyard included. Highest quality.

Made in USA. U.S. Patented.
C. Crane Company Exclusive.
5-year limited warranty.

Weight: 4.5 oz. Size: 7.4" x 1.3" dia.
Runs on three "AA" batteries (included).

Item #CCB4...Black.....$34.95
Item #CCB4...Yellow.....$34.95

White LED Magna-Lite Reader

Magnifying Glass

With the Magna-Lite Reader Magnifying Glass the batteries last four times longer and you get about twice the light than that of the original incandescent bulb! And, the LED bulb is guaranteed for life. The LEDs make the Magna-lite Reader the ideal quality tool for detail. The rim protects the lens.

The ideal tool for hobbies or for reading maps, books and the newspaper. The main lens is 2x and the smaller lens is 4x. Made in USA. Runs for about 24 hours on four "AA" size batteries. (included).

Size: Lens 3.75" Dia.
Handle 1.625" W x 9" L.

Item #MLR.....$39.95

Solar Battery Charger - AAA, AA, C, D and Prismatic

Let the sun charge your batteries! This solar charger holds two Rechargeable Batteries of the same type and size (AAA, AA, C, D and Prismatic). It puts out about 150mA and about 5 volts. Many other solar battery chargers tested were unsuitable because their voltage was too low.

There is a built-in stand on the bottom of the charger, which can be adjusted so that the charger points directly towards the sun. This will allow you to get the maximum charge rate for your batteries. The meter on the top shows you the current output from the solar panel. A diode is used to block current when there is no sun so the batteries stay charged. The solar charger will also charge 7 different sizes of Prismatic rechargeable batteries. Prismatic batteries are a fairly new battery used for some mobile devices.

The Universal Solar Battery Charger is small which makes it convenient for home, extended power outages and outdoor activities.

Size: 6.8" W x 4.5" H x 2.3" D.

Item #SBC.....$24.95

Rechargeable Batteries

Garden Noise Reduction Headphones & Radio Kit

Noise Reduction Headphones combined with a great radio

One of the more unpleasant jobs for home owners, landscapers and gardeners is weed eating. The often times hot and dusty work becomes more painful as we pass the normal limits of our body. There are many other jobs too that can come close such as grinding and polishing and riding a lawn mower.

This kit can quickly become an indispensable friend in noisy environments. Unfortunately it is difficult to build a good radio into noise reduction headphones that will survive the twists, bumps, drops, dust and rocks when working outdoors.

C. Crane's new weed eating radio kit gives a more durable solution - better reception along with a Noise Reduction Rating of 25 decibels.

We supply the CC Pocket Radio, Noise reduction headphones and a heavy duty 3' patch cord. The patch cord has a right angle connector to help absorb pressure on the headphone jack.

The headphones and patch cord will also work with MP3 players and smartphones.

Item #WERK.....$99.95 (includes all of the below)

Also sold separately;
Item #WERK3.....Heavy Duty 3' Patch Cord.....$8.95
Item #WERKHP.....Noise Reduction Headphones.....$39.95
Item #CCPKT.....CC Pocket Radio.....$59.95

Customer Service:
Our customer service department is available at 800-522-8863, Monday through Friday, 7:00am to 5:00pm PST. We want to build a positive relationship so please call us if we can help you with any product questions you may have.

Warranty information:
All our products come with a full manufacturer's warranty; usually one year parts and labor unless otherwise noted.

Returns and Exchanges:
Our products also come with a 60-day satisfaction guarantee. If an item proves to be unsatisfactory within this period you can return it to us (in its original product packaging) for a full refund or credit towards another product. Please insure it. Shipping charges are non-refundable. Please call for a return authorization. A reasonable deduction may be made for any damaged or missing items. Please keep your catalog.

Privacy Policy:
We do not release any information about you to anyone. Our next catalog will mail in early October 2015. Thank you for your support.

Bargains:
We sometimes have returned merchandise available at about 10% off its regular price, we call these "orphans". Each item is carefully checked out, and thoroughly cleaned. A full factory warranty and our 60-day satisfaction guarantee apply to our bargains also. These items are limited to stock on hand so call us to find out what is available or visit our website at: *ccrane.com/orphans*.

eNews Blast Newsletter:
We invite you to sign up for our weekly email notifications,exclusive deals and offers, product spotlights, announcements and special sales. You can subscribe at: *ccrane.com/newsletter.*

Pricing:
Unless we have an unusual circumstance or error, our prices and shipping costs are good through September 2015.

We love letters and emails about our products and services. Most of the letters are in praise and we distribute them around the departments to show everyone that we are doing a good job. We take care of each customer to the best of our ability and strive for excellence. I want to hear your story about experiences with C. Crane, good or bad. Your input becomes our plan for change so we can improve our services and continue to build your trust.

Thank you!
Robert C. Crane

Repair Services:

Repairs generally take 4-6 weeks and are completed on a first come, first serve basis. We only repair products that are manufactured by C. Crane. Please call so we can set up a repair order for you, Most repairs are $59.95 + $11.95 shipping but charges may vary. A check for $71.90 or a credit card number must accompany the insured product. Please be sure to include current contact information including a phone number. **Please remove and keep the batteries, power cord or adapter and carry case before sending the item to us. Our repairs are warranted for one year.**

GIFT CERTIFICATES

C. Crane gift certificates are the perfect solution for anyone who loves radio.

Our gift certificates are available in any amount and never expire.

Refunds for partial amounts will be issued in the form or an additional certificate. Call 800-522-8863 to order or visit: *ccrane.com/gift-certificates.*

Our Mission

C. Crane is a Fortuna, California based company that develops radios and WiFi antennas with enhanced receiving and audio capabilities. We offer radios and light where there is no power available. The radios can receive weaker signals better or work without power. Many of our audio products are tailored for clarity of the spoken word.

As we have done for over 30 years, we promise to:

- Help you make the most appropriate product choices
- Extend customer service beyond the sale and take care of you to the best of our ability.
